- Nothing significant to report

RIVER FORECAST

Cal OES INLAND REGION

River Forecast – The following rivers are expected to meet or exceed Flood Stage:

Placer County:

- Truckee River at Truckee is forecast to be [at or above flood stage now through 04/16/18 and see flows between 4.5 feet and 4.6 feet](#). Flood stage is 4.5 feet.
 - Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

River Forecast – The following rivers are expected to meet or exceed Monitor Stage:

Merced County:

- Merced River at Stevinson [crested at 67.7 feet the morning of 04/11/18 and forecast to recede through the afternoon of 04/12/18 to 67.5 feet](#). Flood stage is 71.0 feet.

WEATHER OF CONCERN

Weather of Concern

- Periods of heavy snow will be possible across the higher elevations of Northern California late today 04/11/18 into Thursday 04/12/18.
- Another fast-moving weather system will spread precipitation southward across the Northern California region later today 04/11/18 into Thursday 04/12/18.
- Very strong northwest winds are expected to develop in the mountains of Los Angeles and Ventura Counties and the Antelope Valley Wednesday afternoon 04/11/18 and will likely continue through Thursday evening 04/12/18. The strongest winds will be on the Grapevine through the Interstate 5 Corridor and in the western Antelope Valley. Wind gusts between 60 to 70 MPH will be possible during this time. Potential impacts for the area include: downed power lines and trees, hazardous driving conditions for all vehicle, especially high profile vehicles, greatly reduced visibility due to blowing dust and sand in the Antelope Valley. Power outages may be caused by downed trees or powerlines.
- Red Flag and High Wind Warnings for the Southern California region remain in effect through Thursday evening 04/12/18.

Weather Advisories, Watches, and Warnings currently active in California:

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

Key Points

04/12 – 04/18

Thursday-Wednesday

- Strong mountain and desert winds in southern California may create strong cross-winds for vehicles and possible reductions in visibility due to blowing dust in deserts.
- Mildly unsettled early part of next week. However, there are no significant weather or water impacts expected.

Saturday

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

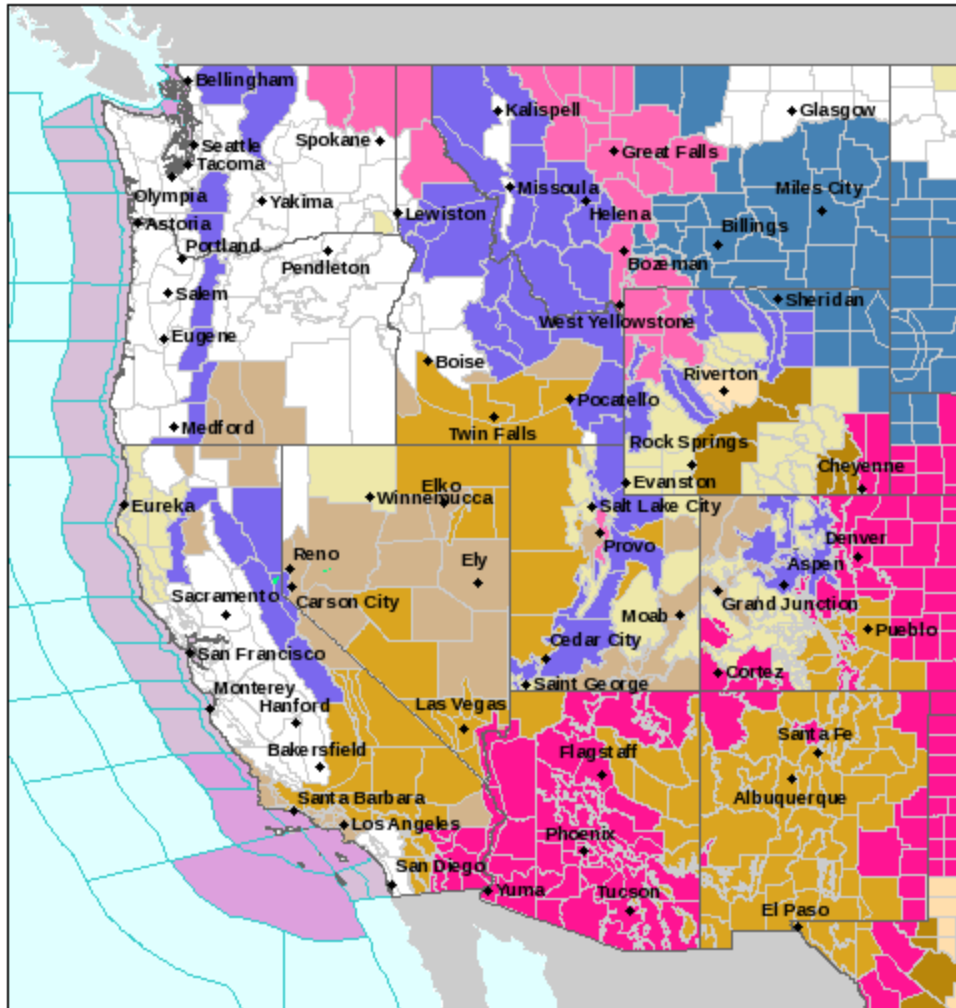

The next in a series of Pacific waves will swing over the area later today into Thursday. This wave will pack a little more of a punch compared to the previous. Expect light to moderate precipitation favoring the tonight period. Snow levels will also be much lower compared to the past few systems. Expect 3,000 to 4,000 foot levels starting tonight and lasting into Thursday. Gusty southerly winds will affect a large portion of the area today into this evening before the cold front moves through. Expect gusts between 40 to 50 mph favoring far northern and eastern portions of the region. Thursday's wind speeds will be lower and generally W-SW. Humidity levels will generally be on the higher side although some 20s will be observed across the Far Eastside Predictive Services Areas. Atmospheric ridging will affect the area Friday and Saturday. This means drier and warmer conditions with a lighter wind flow.

SOUTHERN CALIFORNIA

An approaching Pacific trough will bring much cooler temperatures to the region through Thursday. Maximum temperatures will be in the mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys today, with mid 30s to mid 40s across the mountains and upper 50s and 60s in the valleys Thursday. This trough will also bring showers with up to an inch of rainfall over the Sierra tonight. The snow level will be around 6,000 feet. Westerly winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes this afternoon through Thursday afternoon. On the back side of this trough, there will be northerly winds of 20 to 40 mph with gusts to 60 mph across much of Santa Barbara County, the Grapevine, and the Owens Valley Thursday night. Significant warming along with minimum humidity in the single digits and teens will occur Friday and Saturday as a ridge of high pressure builds into California from the Pacific Ocean. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface over the mountains and below the canyons and passes of Southern California Friday morning through Saturday morning.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46158, 04/10/18, 1403 hours:** Mendocino County Sheriff's Office (MCSO) requesting a SAR mutual aid regarding a missing family of 4, whose vehicle is believed to have gone into the S. Fork of the Eel River, North of Legget, on 04/06/18. Southern Humboldt County Technical Rescue accepted the mission. Cal OES LDO facilitated a request to the California National Guard so they can do a feasibility analysis of the area to further assist in prepping for this mission, should they be able to support it as conditions become suitable for additional assets to search for the missing vehicle and family. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
